

Exchange 2016 Migration Consulting

Online and onsite expertise to help you migrate quickly and affordably to Microsoft Exchange 2016

Exchange 2016 features a new streamlined architecture that takes better advantage of the faster processing power available in modern datacenters. Major enhancements in Exchange 2016 offer easier expansion, improved support

for smart phones and tablets, higher speed, tighter cloud integration, lower cost of ownership thanks to efficient hardware utilization, increased uptime, plus industry-leading security and compliance.

Migrating to Exchange 2016 can be challenging, especially if your IT staff is new to Exchange 2016 or if you are currently running a legacy email platform such as Exchange 2003 or 2007. Progent's nationwide team of Microsoft Gold-certified consultants, project managers, and security experts have experience helping companies of all sizes migrate to Exchange 2016 and can assist you to evaluate the potential benefits of Exchange 2016 for your business, design and implement an efficient upgrade, and provide prompt follow-up support. Progent can also help you upgrade servers and workstations to the required level for hosting and managing Exchange 2016 and can integrate Exchange 2016 with the latest releases of SharePoint and Skype for Business to build an IT ecosystem that enables advanced collaboration.

Progent can help with any phase of your Exchange 2016 migration including site preparation, project planning and management, pilot testing on premises or at Progent's test lab, server virtualization, cloud integration, and IT staff training. You can outsource or co-source any mix of services with Progent.
