

## Application Development Services

*Development support for Windows, Linux, and Web applications*

If you need help creating, enhancing, or troubleshooting Windows, Linux, or Web applications, Progent's team of programmers, database designers, and project managers can make sure you get the job done on time and within budget. Progent's seasoned application developers offer affordable and expert online help for projects as small as writing VBA macros for Excel or as large as developing line-of-business RDBMS applications based on SQL Server, Oracle, or MySQL.

### Web Applications

To help you revamp your corporate Web, create intranet sites, establish a powerful Web presence for a new venture, or build enterprise-class, data-driven Web applications, Progent can provide talented Web designers and developers familiar with popular technologies including Net Framework, SharePoint, ASP, JSP, ADO, VB.Net, Javascript, VBScript, PHP, Perl, IIS, HTML/XHTML, XML/XSLT, XPath, and DHTML.

### Database Design, Programming, and Administration

Progent's experts can help with database design, development, and management for the leading RDBMS platforms including Microsoft SQL Server, Oracle, MySQL, and Microsoft Access. Progent can work with key tools such as T-SQL, PL/SQL, SQL \*Plus, C#, VBA, OLEDB, SSRS, and SSIS, and Progent also offers expertise with database consolidation and tuning, data migration, and information security.

### SharePoint Applications

Progent's Microsoft Gold-certified engineers offer affordable online assistance for planning, deploying, and maintaining successful SharePoint solutions that can dramatically improve your information system in critical areas such as web portals, forms-based business operations, enterprise search, company-wide access to business analytics, and content management.

### Financials, ERP, and Office Productivity

Progent offers expertise with Microsoft Dynamics business software and other popular applications that support areas such as financials, MRP, ERP, project accounting, human resources, sales and marketing, retail, and distribution. Progent offers custom programming and training for Dynamics GP (Great Plains) accounting and can help you integrate and customize Dynamics CRM. Progent can also help you create or refine VBA scripts to enhance and automate Microsoft Excel, Word, and Access.

### Custom Reports

Progent can help you use tools from Microsoft, SAP, and other vendors to create management reports. Progent offers expertise with a range of reporting products including Crystal Reports, FRx, SQL Server Report Services, Report Writer, Management Reporter for Dynamics ERP, and Excel Analysis Cubes.

### On Line Consulting Experts

Progent is a pioneer in delivering advanced consulting services online and has successfully delivered remote solutions to businesses in every state in the U.S. Remote support saves travel costs, resolves problems faster than onsite service calls, and streamlines the coordination of large project teams. For more information, call 1-800-993-9400 or send email to [information@Progent.com](mailto:information@Progent.com)

## SOLUTIONS

- Progent's Web developers can help you design, deploy, and troubleshoot public or private web applications, optimize Web performance, and expand your support for handheld devices
- For developing data-driven applications, Progent offers the expertise of certified SQL Server, Oracle, MySQL, and Microsoft Access database designers and programmers
- Microsoft-certified SharePoint consultants can help you build and manage SharePoint Sites, Communities, Search, Content, Insights, and Composites
- Microsoft Dynamics GP, ERP, and CRM developers can help customize your key business applications and seamlessly integrate multiple data sources
- Progent can help you create, enhance, or migrate VBA scripts for Excel and Word and build custom RDBMS front ends with Microsoft Access
- Progent's reporting experts can help you create custom reports with Crystal Reports, FRx, SSRS, report Writer, and other tools from Microsoft and SAP
